

The diagram illustrates a network topology with various components and connections. The components are organized into several sections, each with a large blue header bar.

- Top Section:**
 - Header:** A large blue bar with the text "Top Section" in white.
 - Network Diagram:** A diagram showing a network of nodes and connections. The nodes are labeled with IP addresses and names. The connections are represented by lines and arrows. The diagram shows a complex network structure with multiple layers of nodes.
- Middle Section:**
 - Header:** A large blue bar with the text "Middle Section" in white.
 - Network Diagram:** A diagram showing a network of nodes and connections. The nodes are labeled with IP addresses and names. The connections are represented by lines and arrows. The diagram shows a complex network structure with multiple layers of nodes.
- Bottom Section:**
 - Header:** A large blue bar with the text "Bottom Section" in white.
 - Network Diagram:** A diagram showing a network of nodes and connections. The nodes are labeled with IP addresses and names. The connections are represented by lines and arrows. The diagram shows a complex network structure with multiple layers of nodes.

The diagram is a detailed representation of a network topology, showing the flow of data and the structure of the network. The nodes are labeled with IP addresses and names, and the connections are represented by lines and arrows. The diagram is a complex and detailed representation of a network topology, showing the flow of data and the structure of the network.
